## MASTERS: MATERIALS

### IVM Group and Milesi

IVM Group is one of the largest companies in Europe and worldwide, specializing in the production of wood coatings, with their own Branches in Italy, Germany, France, Spain, Greece, Poland and US, present in more than 100 countries through specialized retailers.

The state of the art plant in Parona, Italy, a unique production plant for size and architecture, develops on an area of more than 15 hectares. Production facilities have been designed and built to ensure production standards among the highest in the world, both quantitatively and qualitatively.

The production processes are broadly automated, with the precise aim of improving the quality of processed and finished products, in full compliance with the legislation on personal and environmental safety.

Milesi products were born in 1947 in Italy, a country that has always set the trends of quality and fashion in the furniture industry. In 2013 IVM Group set up its subsidiary in the USA, thus making Milesi products and world class technology readily available to the north American Professional users. It offers a wide assortment of paints to meet all the application requirements: from those of companies that employ large automated systems to the finest craftsmen's.

The customer receives a unique and complete service level, granted by a highly specialized distribution and Technical Assistance Network, responding promptly to all technical application requirements and offering the most suitable solutions to achieve the best quality and design results.
